Subject New Nugent pricing

History:

 This message has been forwarded.

Mr. Martin,

Good morning, First I would like to say that I sincerely hope your installation goes well using Service Doctors. They are putting in a R-22 system, which is being phased out at the end of this year, It is my opinion that this is not having your best interest in mind. R-22 systems will be much more expensive to maintain in the years to come. Having said that if you have any problems our concerns during your installation please do not hesitate to call me.

Now, after careful number crunching and scrutinizing the job cost, John Nugent & Sons can not honor the pricing I gave you earlier of \$5500 or \$5150,, this pricing is just not feasible. I apologize for extending this pricing as I was trying my best to compete for this contract. My original set pricing will be honored with a 10% discount as originally stated. My set pricing is \$6800 for the larger unit and \$6600 for the smaller unit. Both will receive a 10% discount off of that price. I have extended the warranty to 10 year parts and labor with a 3 year service agreement. The 10% discount applies to everyone regardless of how many people sign with Nugent, and it does not carry an expiration time. I feel some residents will still choose John Nugent and Sons as we have developed a stellar reputation in your community.

In closing I wanted to thank you for your assistance and hard work in this matter.

Mike Jackson

This message has been replied to and forwarded.

Mr. Martin,

Typically these installations take 2 full days, with the customer out of water for 1 day.

Thank you,
Mike

Mike -

Thanks for this information it is very helpful. I just have a few questions I would like to discuss.

I will not share this with the group until after we talk.

Subject Group pricing

Mr. Martin,

I heard back from my vendors, some helped me out some did not. I have put together some system pricing that everyone in your community can take advantage of, the installed price includes all discounts. These systems will all carry the same warranty through John Nugent and Sons,, these discounted rates are good with a signed contract and will be honored until the end of April. The system pricing is as follows:

3ton First Company fan coil unit with 2 1/2 ton Rheem air conditioner, Honeywell 5000 thermostat
\$3,800 installed

21/2ton First Company fan coil unit with 2ton Rheem air conditioner, Honeywell 5000 thermostat \$3,600
installed

75 gallon direct vent circulating water heater \$1,700 installed

50 gallon direct vent circulating water heater \$1,550 installed

For those of you that have already changed out your water heater, you would just need to change out the appropriately sized fan coil and a/c. I have only seen 2 and 2 1/2 ton a/c units in this community. The indoor fan coil unit is sized 1/2 ton larger than the outdoor unit for efficiency and proper air flow. On ALL fan coil units we will have to cut an access hole to remove the old unit, I have a drywall guy that we use who can patch this hole for you at an additional charge if you choose.

The warranty info is as follows:

3 year labor

5 year parts

10 year compressor

1 year service agreement

Thank you,

Mike Jackson

John Nugent and Sons

Subject Your System

History:

 This message has been replied to and forwarded.

Enclosed you will find a quote for your system in particular.

Carrier 2.5ton A/C unit-M#-24ACB330A003-

<http://www.residential.carrier.com/products/acheatpumps/ac/comfort.shtml>

First Company 3 Ton Air Handler- M#-36UCQB- <http://www.firstco.com/products/ucqb.asp>

A.O. Smith 75 GAL. Direct Vent Water Heater with side loop-

http://www.hotwater.com/lit/spec/res_gas/AOSRG46400.pdf

The system includes a mixing valve at no additional cost, a digital programmable thermostat (pro 5000 honeywell-
<http://yourhome.honeywell.com/Consumer/Cultures/en-US/Products/Thermostats/Professionally-Installed/Programmable/VisionPRO/VisionPRO@+Thermostats.htm>), all labor, and and all necessary piping for the water heater and the A/C equipment. The total price for the job is \$4,700.00+tax. If you pay by cash and do not use the financing then a 2% discount will be applied to your bill. The system comes with a 10yr parts and labor warranty, and is subject to our 24/7 on call warranty service. As for the drywall repairs, a gentleman by the name of Dave Burroughs will survey a property similar to yours on Wednesday and we will have a better estimate as to the necessary drywall repairs. Please let me know if I need to add anything to this estimate. Thank you for your time.

Subject RE: Pavilion replacement of heating units

Enclosed you will find several options for the replacement of heating/ac and water needs for several condo units at the Pavilion of Falls Church. The option will include the first company air handlers, pricing for A.O. Smith water heaters, and pricing for Payne (Carrier made brand) and Carrier brand A/C units.

Smaller Layout Option#1-\$4000.00-for Puron (410-a) add \$200

Carrier 2 ton Comfort Series AC(r-22)-M#24ACS324a003-
<http://www.residential.carrier.com/products/acheatpumps/ac/comfort.shtml>
First Company 2.5 ton Air Handler(r-22)-M#30UCQB- <http://www.firstco.com/products/ucqb.asp>
50gl Direct Vent Water Heater with side loop-
http://www.hotwater.com/lit/spec/res_gas/AOSRG46400.pdf

Smaller Layout Option#2-\$3800.00 for Puron add \$200

Payne 2 ton AC(r-22)-M#-PA13NR02400G- <http://payne.com/PA13.shtml>
First Company 2.5 ton Air Handler(r-22)-M#30UCQB- <http://www.firstco.com/products/ucqb.asp>
A.O. Smith 50gl Direct Vent Water Heater with side loop-
http://www.hotwater.com/lit/spec/res_gas/AOSRG46400.pdf

Larger Layout Option #1-\$4500.00 for puron add \$200

Carrier 2.5 ton AC (r-22)-M#-24ACS330A003-

<http://www.residential.carrier.com/products/acheatpumps/ac/comfort.shtml>
First Company 3ton Air Handler-M#-36UCQB-<http://www.firstco.com/products/ucqb.asp>
A.O. Smith 75gl Direct Vent Water Heater with side loop-
http://www.hotwater.com/lit/spec/res_gas/AOSRG46400.pdf

Larger Layout Option#2-\$4,200.00 for puron add \$200

Payne 2.5 ton AC(r-22)-M#-PA13NRO3000G- <http://payne.com/PA13.shtml>
First Company 3ton Air Handler-M#-36UCQB-<http://www.firstco.com/products/ucqb.asp>
A.O. Smith 75gl Direct Vent Water Heater with side loop-
http://www.hotwater.com/lit/spec/res_gas/AOSRG46400.pdf

All options include all necessary duct work, labor, remove/disposal of all old equipment. As for the mixing valves, they typically do not need to be replaced as these tanks I am quoting are direct replacements for the units currently installed. If they do need to be replaced please add 178.00(our cost) for the mixing valves. Tom for your particular unit you have a power direct vent and the price changes by 400.00 above the estimate that is listed above. The cost difference is really 600.00 but in the interest of keeping the estimates low we are eating some of the additional cost. All systems come with a full 10 yr parts and 10 yr labor warranty. I suspect that the other tenants that live in condos with a similar layout to yours have the water heater listed above so their prices will not change, if they have the same as yours then the price will go up by 600.00. Depending on how many people want to go with the systems that price can be negotiated down. If some customers just want to replace the water heaters then the pricing is as follows:

50 Gal Direct Vent Water Heater with side loop-
http://www.hotwater.com/lit/spec/res_gas/AOSRG46400.pdf -\$1,565.00
75 Gal Direct Vent Water Heater with side loop-
http://www.hotwater.com/lit/spec/res_gas/AOSRG46400.pdf -\$1,755.00
75 Gal Power Vent Water Heater with side loop-
http://www.hotwater.com/lit/spec/res_gas/ARGSS00407.pdf -\$2,075.00

Please let me know if I need to revise this estimate in any way and than you for your time.
